Maintenance

32 years at High Point

High Point is revered for having a beautifully maintained, world class facility, and for its strikingly friendly, open atmosphere. Brooks Schultz has been a key contributor to this legacy for more than 32 years! Always helpful and always smiling, Brooks returned to his alma mater in the 1980's, and has been a staple of High Point's staff ever since.

In his own words:

- **What is the best part of your job?:**

Learning! There are so many things you need to know to run a building and technology keeps changing. I feel like I learn something new every day.

- **What do you find unique and special about High Point?:**

It's a special place. My children went here, and so did I. So, it's definitely a special place for my family.

- **How have you enjoyed working in a high school for the past 32 years?:**

I like the kids. They're sharp, and I think most of our students have a real good head on their shoulders.

- **Do you have any fun memories of your time at High Point?:**

Every day is fun, if you let it be that way. Life is all how you look at things.

- **Outside of High Point, what are your interests and activities?:**

I love the outdoors, and fish and hunt whenever I can. I also have maintenance projects at home which keep me busy. Of course, my grandkids keep me very busy!
